Go to “Pickleball Strategies & Etiquette”. This list is on the left of the screen.

“Pickleball Strategies & Etiquette” is a fairly long article giving you an overview of how to play the game in a friendly manner. This is a very good article.

- Also on the list, on the left of the screen is: “Tips of the Week”. This is a list of reminders for yourself explaining to you what you need to do to play better.
- Also, slightly to the right of the list is a video site: “100+ pickleball strategies video”.

From this site, you can go to “Doubles Pickleball Strategies 101”. This video is about 30 minutes long but well worth it. The companion video is “Doubles Pickleball Strategies 102”. This video is about 9 minutes long. Also, “103” about 13 minutes long.
